USER INTERFACE DESIGN

EXPERIMENT 8

NAME: Harshinee M **REG NO:** 240701182

AIM:

The aim is to create storyboards representing the user flow for a mobile online book store application using Balsamiq.

PROCEDURE:

1. Tool Used: Balsamiq Wireframes (https://balsamiq.com)

2. A new project was created and mobile wireframe screens were added to represent the complete user journey.

3. Each screen was designed to simulate the process of browsing books, selecting categories, viewing details, and confirming orders.

4. UI components such as buttons, search bars, navigation icons, placeholders, and text labels were used from Balsamiq's library.

5. The design focuses on a clean, simple, and user-friendly layout with easy navigation.

USER FLOW:

1. Home Screen – User opens the app and views categories and best sellers.

2. Category Screen – User selects a category such as Fiction.

3. Product Listing Screen – User browses books available in the selected category.

4. Book Detail Screen – User views complete details of the selected book.

5. Order Confirmation Screen – User places the order and receives a success message.

SCREEN-WISE EXPLANATION:

1. Home Screen
Components:

- Menu icon
- App title (Online Book Store)
- Search bar

2. Categories section
- Best Sellers section
- Bottom navigation bar

Purpose:

Acts as the main entry screen where users can search books, browse categories, and check popular books.

2. Category Screen (Fiction)

Components:

- Back button

- Category title (Fiction)
- Search bar
- List of books with image placeholders
- Book title, author name, and price
- “Add to Cart” button
- Bottom navigation bar

Purpose:

Allows users to browse books available under the selected category.

3. Product Listing Screen

Components:

- Multiple book cards
- Book image placeholders
- Book title
- Author name
- Price
- Add to Cart buttons

Purpose:

Displays a collection of books in list format for easy browsing and selection.

4. Book Detail Screen

Components:

- Back button
- Screen title (Book Detail)
- Large book image placeholder
- Book name (The Alchemist)
- Author name (Paulo Coelho)
- Price
- Description section

Bottom navigation bar

Purpose:

Provides detailed information about the selected book before purchase.

5. Order Confirmation Screen

Components:

- Confirmation title
- Success icon
- Thank You message
- Order ID

- Continue Shopping button
- Bottom navigation bar

Purpose:

Confirms successful order placement and allows users to continue shopping.

RESULT:

Successfully created storyboard wireframes representing the user flow of a mobile online book store application using Balsamiq. The design clearly illustrates navigation from browsing books to order confirmation.
